# Bold Intrusion Made By Negro

**Mrs. H. S. Covington Fires Five Times At Stranger, Who Invades Her Room At Early Hour.**

The local police are searching for an unidentified negro, who early this morning entered the home of Mrs. H. S. Covington, 154 West Main street, and escaped after being fired upon several times by Mrs. Covington. No arrest had been made early this afternoon, although the police are continuing their efforts to capture the negro, but have only a vague description of him.

It was one of the boldest undertakings which have occurred for some time in Danville. Mrs. Covington was awakened at about 5:10 o'clock and had been gone but about 10 minutes when the strange negro made his appearance in the house. When Mr. Covington left, he failed to lock the front door, thinking it would be safe so near daylight. Mrs. Covington was lying in bed with her infant, she said this morning, when she heard the door open, but thought that her husband had returned, and so she did not get up. She was sitting up in bed when she heard the door open, and she was much lower than Mr. Covington and wore a cap. The reflection of the street lights in the room enabled Mrs. Covington to see readily that a stranger was in the room. She screamed and excitedly told the negro to get out or she would shoot. It was then that the negro hurriedly left the room, falling over chairs and other furniture.

By this time Mrs. Covington had procured a pistol beside the bed and went to the door and fired five times at the negro as he ran through the hallway and into the street. None of the shots found their mark, so far as known, but if the negro was struck by a bullet it was not in a vital spot, for he continued his race through the yard, down the street and disappeared into an alleyway about 100 yards down the street leading to Brunswick.

The police of Charlotte, N. C., are diligently working on a series of clues which they expect to result in the capturing of several car thieves. According to advices from that place, and a dozen men are in custody there, having been arrested, it is claimed, as a result of information given the authorities recently and on which action was taken. Among the men detained is Lewis Slayton, son of one of the city who, according to word received from his lawyer, is charged with the driving of an automobile.

Chief of police Ben today received word that the large black car which was stolen from the garage of C. A. Brazier on Robinson avenue several months ago, has been recovered. This automobile, which was never traced, despite efforts made by the local police. The car was insured and payment was made to Brazier by the company, it is said.

Brazier, who was communicated with this afternoon, said that he had received no word of the recovery of his car.

The Charlotte police claim to have information which will eventually result in the recovery of the stolen car business in the states of Virginia, North and South Carolina. The cases have not been heard and the authorities are declared to be ferreting out numerous clues, some of which are said to extend as far as Danville where, it is intimated, there may be some development during the next few days.

Slayton, since leaving Danville is said to have operated a pool room in Charlotte.

**Big Liquor Drive On Florida Coast**

WASHINGTON, Feb. 3.—Plans for a concerted drive on liquor and drug smuggling along the Florida coast were announced today by Acting Chief N. J. of the prohibition agents.

**Lehigh Railway Shops Are Burned**

JERSEY CITY, Feb. 3.—Fire which destroyed the Lehigh Valley railroad's repair and supply shops here today caused a damage estimated at \$200,000.

If you want to "Laugh and Forget" go to the Dixieland Minstrel tonight. 2-2RB2.

**Thousand Rubles Worth Half Cent**

(By The Associated Press.) MOSCOW, Feb. 3.—A government decree announced today that hereafter the street railways and other government institutions will accept nothing less than thousand ruble notes, worth half a cent of American money.

Charles A. Barker is confined to his home on Calhoun street by reason of serious illness.

We are on our way to the Dixieland Minstrel at the Municipal Hall tonight. "Baby Brothers Orchestra." 2-2RB2.

**British India Greets Prince**

(By The Associated Press.) CALCUTTA, Feb. 3.—The Prince of Wales on his arrival here.

Don't miss the Dixieland Minstrel at the Municipal Hall tonight. 2-2RB2.

## Wins Bride By Quiz

Samuel A. Halsey was the only man who answered all the questions of the famous Edison quiz correctly. Edison rated him A+. Then he won the heart of Miss Charlotte W. Haskins, sister of Mrs. Charles A. Edison, wife of the wizard's son. Photo shows him with his bride.

## Robberies Are More Numerous

NORFOLK, Feb. 2.—Plain clothes men seem unable to cope with thieves that now infest the city. With detectives at work from sundown to sunrise every night robberies continue to grow in number. Last night eight occurred between 7 o'clock and midnight. At least that was the number reported at headquarters. Mail thieves still are active.

A burglar entered the side door of D. H. Kries' bungalow, at 4209 Colonial avenue at 9 o'clock by means of skeleton key and after ransacking Mrs. Kries' bedroom, taking a watch, a diamond ring and a revolver, scurried over to the house next door occupied by C. R. Murray, 4205 Colonial avenue and locked it. Mr. and Mrs. Murray were away from home and they had left their garage unlocked. The burglar went in the garage and got a second-hand which he placed against the back of the house. Climbing the ladder, he shattered the glass in a pantry window and ran his hand through the aperture and turned the bolt that held the window down. Then he raised the window and crawled through and helped himself to whatever struck his fancy.

Among the articles found to be missing when Mr. Murray and his family returned home at 10 o'clock were a string of pearls, a diamond ring, two other rings, two watches and a small amount of money.

Meanwhile fellow crafters of the Colonial place ruffies had been active in other corners of the city. About 10 o'clock somebody walked into the home of J. Ambrose, home, 101 Tenth avenue and carried off two overcoats. Two fur coats were reported stolen earlier in the night from the mail rack in the home of Mrs. Eugene Galloway, 1906 Omoinduro avenue.

The store of the Pacific Store and Roofing Company, 245 Main street, was entered early in the night. Either the thief was locked in the store at closing time, or else he climbed in through the second story window, throughout which he made his exit with two sets of silver cutlery and several electric razors after he had concluded his depredations in the store.

While house breakers were working over time, automobile thieves were not asleep. At 11 o'clock, 17 Lafayette boulevard left the Colonial theatre after seeing the show. He found that somebody had carried off his Franklin automobile which he had left in Tazewell street near Main street. He drove to the theatre and finished writing the report on Mr. Bent's car, Mrs. Leon Wood, 502 Graydon avenue telephone headquarters reporting the theft of a new car and cover from the back of her automobile. The theft was committed while she was at the theatre, her car having been left in Tazewell street near Fourth street.

**New Party Organ Is Launched in Nebraska**

LINCOLN, Neb., Feb. 3.—An eight-page newspaper will be started here on February 15. It will be edited by the Interstate News and the organ of the new Progressive Party of Nebraska, a political body organized at Grand Island last December.

C. R. Ansley will edit the Interstate News and the business management will be directed by C. A. Sorenson and R. L. Boyd, attorneys of this city.

**Y. M. C. A. Preparing for Membership Campaign**

The annual membership campaign of the Young Men's Christian Association will be conducted this year as formerly during the third week in March. The membership committee is maturing plans for the promotion of this campaign.

**Life Insurance—Buy from Bass.**

1-2RB2.

**British India Greets Prince**

(By The Associated Press.) CALCUTTA, Feb. 3.—The Prince of Wales on his arrival here.

Don't miss the Dixieland Minstrel at the Municipal Hall tonight. 2-2RB2.

**Prize Essays of H. S. Students to Be Read**

A meeting will be held in the Y. M. C. A. auditorium at four o'clock on Sunday afternoon. One feature of this meeting will be the reading of the prize essays by the students of the Danville High School.

Mardi Gras, New Orleans-Moble, Reduced Fares Feb. 25-28th, Southern Railway System. Apply ticket Agents. D2-1, 2, 3, 4, 5.

## Sheppard Back With His Wife

PETERSBURG, Va., Feb. 2.—Charles Sheppard, of this city, former army flyer, whose sudden attack of amnesia in New York city separated him from his bride on their honeymoon and whose subsequent moves and actions for the past week attracted attention throughout the country, is again united with his bride. He also has completely recovered his memory.

This information was received here today by Mrs. H. L. Mann, who resides about three miles from this city in Dinwiddie county and who is a sister of Mrs. Sheppard.

Sheppard and his wife are now at the home of Mrs. Sheppard's sister, Mrs. Edward Martin, at 1223 North Charles street, Baltimore. When the couple will return to Petersburg, who his also the bride's home, and end their bridal trip, which was fraught with such unusual events for both, is not known. Sheppard rejoined his wife in Baltimore yesterday.

News dispatches several days ago from Rochester, N. Y., stated that Mrs. Sheppard, with her sister, Mrs. Mann, had left word for Sheppard that they were coming back to Petersburg and for the husband to meet her here at the Y. W. C. A. Inquiries at that place revealed that no word had been received from either woman and it was thought that they had become lost, adding further mystery to the case. Mrs. Mann, however, today explained that these dispatches were erroneous for she had left word for Sheppard to meet his wife and her sister in Baltimore at the Y. W. C. A.

This Sheppard failed to do and Mrs. Mann and Mrs. Sheppard went to the home in Baltimore of the sister, the former remaining until Monday on account of the snowstorm. She returned to Petersburg Monday and today said she and her husband were planning to move to California.

**Real Booze Hounds In Volstead Pound**

BIRMINGHAM, Ala., Feb. 2.—Ring and Red, two long-bodied hounds used by moonshiners to bark warning of the approach of revenue agents, were released today by the authorities of Shelby county under bond of \$50 each.

For several days the dogs had been prisoners following the arrest of their master. Revenue agents testified to their efforts on behalf of moonshine traffickers. The dogs were brought into town, arrested and released only when their master had supplied the bond.

The duties of Ring and Red were simple. At the approach of a revenue agent—or any stranger, for that matter—the dogs began to wail and howl so loudly they could be heard at some distance. This gave the moonshiners time to flee. But the dogs were released to evade the moonshiners and wholesale arrests followed.

**Lost Memory Beaten Back With Rifle Butt**

OTTAWA, Feb. 2.—Quartermaster Sergt. William Ball, of the Canadian Forestry Corps, reported today at Dominion headquarters of the Great War Veterans' Association with a story of having had his memory beaten out of him in 1919 and knocked back two years later.

Ball said he had been beaten and robbed in Bordeaux in April, 1919, and that he had lost all recollection of his Canadian home. Later he joined the Spanish Foreign Legion and claimed to have recently recovered his memory after an officer had hit him on the head with a rifle butt in a jail in Tetra, Morocco.

Ball was posted as a deserter after his disappearance and the Aeternum Association has been conducting a search for him in behalf of his wife who lives in Port Hope, Ontario.

**New Shoe Store Will Be Opened**

The Newark Shoe Store of Newark, N. J., conducting about two hundred stores throughout the country, has secured a lease on the Main street store at present occupied by the Royal Coffee Company, effective May 1st, at which time the present lease will expire. The coffee company will find another locale and intends to remain in business in Danville.

Interior decorators are at work today on the premises occupied until February 1st by the Sanitary Barber Shop in the Burton Building. The building is being remodeled for Anderson Brothers of Lynchburg, who propose to open a Five-Wire story within the next fortnight. This is a "cash-and-carry" store, purchasers waiting on themselves from the counters and paying as they emerge. The same way that modern department stores are operated.

**25 Miners Killed In Gates Explosion**

(By The Associated Press.) GATES, Pa., Feb. 3.—Twenty-five miners lost their lives in an explosion which yesterday wrecked part of the Gates mine, according to an official announcement.

**Manufacturers Plan Remedy**

(By The Associated Press.) WASHINGTON, Feb. 3.—The National Association of Manufacturers proposed a consolidation of all governmental activities in relation to railroads into one tribunal as a remedy for the present situation.

**Prize Essays of H. S. Students to Be Read**

A meeting will be held in the Y. M. C. A. auditorium at four o'clock on Sunday afternoon. One feature of this meeting will be the reading of the prize essays by the students of the Danville High School.

**Bankers' Affairs**

**Would Amend Divorce Laws**

(Special to The Bee.) RICHMOND, Va., Feb. 3.—Thursday afternoon has been fixed by the House committee to report on the bill for amending the divorce laws and on an end to the evil which has become a disgrace in many parts of the state. Delegate Hall asks that all who want to be heard will be on hand. The bill of amendment and several amendments have been announced. Their intention to be in advocacy of the measure.

**Milk Inspector Is Back from Richmond**

City Milk Inspector E. L. Hutchins has recently returned from Richmond where he has been studying dairy conditions with a view to acquiring himself with modern methods in connection with his work here. The milk grading machine will become operative on March 1st next, at which time the health department will begin the issuance of permits to all individuals or concerns vending milk in the city of Danville.

**Prize Essays of H. S. Students to Be Read**

A meeting will be held in the Y. M. C. A. auditorium at four o'clock on Sunday afternoon. One feature of this meeting will be the reading of the prize essays by the students of the Danville High School.

Delegate Hall asks that all who want to be heard will be on hand. The bill of amendment and several amendments have been announced. Their intention to be in advocacy of the measure.

# Movie Director's Death Mystery

**New Furniture Concern In Henry**

A new furniture manufacturing company has been organized at Bassett, in Henry county, with half a million dollars capital. When the subscription books closed, however, it was found that one million dollars had been subscribed, virtually all of the stock being subscribed by people of Henry county. The concern will be known as the J. D. Bassett Furniture Company, with J. D. Bassett president; J. C. Hooker, secretary and treasurer; T. B. Stanley, first vice-president; George Craig, second vice-president.

The factory will be a large one and will be on the Norfolk and Western line near Bassett. Twenty houses for executives are already being built by the concern.

News from Franklin county tells of the building of two large storehouses which are being built by the Bald Knob Furniture Company of Rocky Mount. These will represent an investment of \$100,000. Excavations are already being made for the foundations.

**Mrs. Delmont To Wed L. Johnson**

(By The Associated Press.) LINCOLN, Neb., Feb. 3.—Mrs. Maude Delmont, who is engaged to be married to Lawrence Johnson, vaudeville actor.

**Expect Conference To End Tomorrow**

WASHINGTON, Feb. 3.—If all the gold coin could be divided up among the 110,000,000 people of the United States your share would be only \$2.40. Out of the country's gold stock of \$3,000,000,000, only a small part of it is coined and in circulation. Some of the coined metal is held as reserve by the United States treasury. Most of it is in the form of gold bullion.

The gold in the general fund of the treasury, according to today's figures, was \$211,000,000. There is a gold reserve of \$132,000,000.

The rest of it is in gold credits, apportioned among the various Federal Reserve banks, or in the form of gold certificates, which represent the rest of the nation's gold stock.

**U.S. Has Enough Gold To Give Everyone \$2.40**

WASHINGTON, Feb. 3.—The city street sweeping force made short work of the remains of the slush and snow in the business section of town last night. Using firehose when most of the traffic has ceased the remains of the heavy fall was flushed down the gutters and into the Main street between Brink and the Municipal Building had been cleared of the accumulation. Part of Craghead street, Union streets and Market streets, also Patton were washed clean during the night.

**Arbuckle Jury Still Out.**

(By The Associated Press.) SAN FRANCISCO, Feb. 3.—The jury is still locked up in the Roscoe Arbuckle case.

**Bankers' Affairs**

**Would Amend Divorce Laws**

(Special to The Bee.) RICHMOND, Va., Feb. 3.—Thursday afternoon has been fixed by the House committee to report on the bill for amending the divorce laws and on an end to the evil which has become a disgrace in many parts of the state. # Expert Tells What Genoa Conference Means to Europe

(This is the first of two articles by a recognized expert on the coming world economic conference at Genoa.)

By J. W. T. MASON  
Expert on International Relations

WASHINGTON, Feb. 3.—The summing-up of the Genoa conference is the first move since the war to bring friends and enemies together in a concerted effort to save Europe.

The Genoa conference as originally planned called for invitations to Germany, Austria, Bulgaria and Russia to send delegates to meet the allies' representatives on a basis of equality.

In this arrangement is carried out, Genoa, birthplace of Christopher Columbus, who discovered a new world, will mark the birthplace of a new Europe.

There can be no recovery for Europe while divergent policies prevail among the trans-Atlantic nations. The statesmen across the ocean are past discovering that fact.

All of them, however, are not yet convinced of its truth and for that reason the Genoa conference is being threatened with failure before it begins.

France is blocking the way to peace at Genoa. Peace was not really signed at Versailles, according to the belief in France. Only an extended armistice was forced on the Germans who waiting their time to resume the war.

Therefore France wants no questions discussed at Genoa which in any way will strengthen Germany economically or financially. France believes as soon as the Germans get their strength back, they will begin a war of revenge.

France also insists that the Russians be allowed to attend the Genoa meeting only as inferiors and on sufferance. France demands that the Russians pay their foreign debts before being admitted to an equality with other nations.

With France in this obstinate mood, the high hopes that the Genoa gathering would start Europe on the path of accelerated recovery are fading.

The nations in Europe which want the Genoa conference to be held for the purpose of co-operation of all around declare that France instead of Germany is preparing for a new war in order to get permanent possession of the Rhine.

They also say France cannot legitimately demand that Russia's foreign debts be paid until France pays her own. France owes more money to foreign nations on which she is paying no interest whatever than Russia.

The Genoa conference may end in failure, but it will have marked a beginning. The original program of the Genoa conference eventually will have to be taken up by another conference. There is no other way of saving Europe as a whole.

At Genoa or at a subsequent conference the following problems will have to be faced, for in them are solved, chaos in Europe will continue.

ONE—Revision of the index of prices demands on Germany so that the German people will have an incentive to reform their currency and resume their normal economic life by being allowed to keep some of the profits of their labor.

TWO—Stimulation of Russian trade so that Europe can increase its food supplies from Russia and sell its manufactures to Russia in return.

THREE—Stabilization of exchange so that future prices can be reasonably estimated, by making an end to government borrowings and increasing taxation to meet government expenses.

FOUR—Reduction of land armaments, so that the nations can get their minds away from thoughts of war and can concentrate on peaceful development.

(The relation of the Genoa conference to the United States will be discussed in Mason's second article in The Rec tomorrow.)

Weather Report.

## Today's Fashion Hints

### Black Hats For Spring

By MARIAN HALE

NEW YORK, Feb. 3.—The first spring offerings of the milliners tried to repeat some of the winter successes. There is a decided tendency toward the very smart small hat which hints of the trirem and is done entirely in black.

Black is strong. Black always predominates in spring, giving way as the season progresses to lighter tones. Some designers, however, are already devoting their bent for line and color to hats of extraordinary size great soft floppy affairs in lovely colors.

Mauve, which has been a winter favorite, being used much for sports hats. Purplish, the new color which is just a shade off violet, is also strong in sports wear.

A very clever model, and vastly smart, is the large hat shown above. The shiny, graceful bea feathers, which might be a too severe line about the face and give to the wearer a rather "dress up" air. The hat itself is of imported haircloth.

Hats of this type are seen with tailors which go neatly about their morning shopping and are equally good with the gown one calls or lunches in the afternoon.

## Jonas M. Libbey Dies in 500-Foot Plunge From Roof

Friends Doubt Fall from Municipal Building Was Suicide, Asserting He Was Prosperous.

NEW YORK, Feb. 2.—Jonas M. Libbey, member of several New York clubs but living in a furnished room over the basement restaurant at No. 248 West 44th street, was instantly killed in the noon hour yesterday when he plunged from the roof of the Municipal Building to the sidewalk, five hundred feet below. The police believe he went to the roof determined to commit suicide; he had no business there.

Mr. Libbey's relatives and friends could that he wilfully took his life, for they say he had no reason to do so. He was a sufferer from asthma, they admit, but he was cheerful and busy with real estate operations. "The last man in the world one would consider a tentative suicide," he was they say, well off financially, yet they could not explain why he had given up his comfortable residence at the Union League Club for a modest room off Seventh avenue.

The only papers found on Mr. Libbey's body were business documents, and neither at his home nor at his club did he leave any messages to prove he intended to take his life. His brother, Frederick Libbey, of Spring Lake, N. J., received a letter from him Tuesday in which he mentioned that he was happy and contented. His brother believes he was suddenly seized with apoplexy as he was seeking fresh air to relieve his asthma.

### Death House Has Funny Film Show

NEW YORK, Feb. 2.—Twenty-three condemned prisoners saw a motion picture comedy shown for half an hour on a small screen outside their cells in the Sing Sing death-house yesterday afternoon. The object was to take their thoughts off the execution of two of them tonight. Floyd Glover and Harry Givner, the two about to die, saw the picture.

The film, "Robinson's Trouser," is produced by the Universal concern with Lee Moran playing the leading part. Before it was shown in the death-house it was tested before Wardens Laves for censorship. The pictures were thrown from a small projector given to the prison by Thomas Morgan, the moving picture actor. Alfred Poffers, a prison guard, operated it.

The screen was hoisted at one side of the corridor between the two rows of cells. The slayers caged on the opposite side of the screen were able to enjoy the show through the bars. When the film was run off the curtain was shifted to the other side of the corridor and the men on the other side enjoyed it. So all got a "clash" at the picture. And "clash" is a figure of speech, because they had to look diagonally down across the corridor.

Four condemned men did not see the show. Lawrence, Jack L., who killed wealthy Mrs. Hamilton of West Hempstead, L. I., and James Dover, convicted of killing Adina Zittel, a shopkeeper, in Astoria, L. I., were among those excluded.

Warden Laves' officials emphasized that the pictures were not given to entertain or lull the prisoners. Whenever one for an execution draws near, the condemned men are all wroth and have a hard time restricting their nervous excitement.

TO MEET SATURDAY

The Wantebook club of the Young Men's Association will hold an important meeting on Saturday morning at nine o'clock. George M. Cook, president, desires the attendance of every member who can make it convenient to be present.

### Organ Vibrations Caused Crash?

WASHINGTON, D. C., Feb. 2.—Vibration caused by musical instruments, abetted by the weighty snow, is being considered by scientists as a contributing cause for the disastrous collapse of the Knickerbocker theater roof, Saturday night.

Slight swaying, which may have been caused by certain notes struck by the orchestra or the huge pipe organ, possibly assisted in making the roof supports insecure, according to several noted scientists and experts upon sound action.

Although I cannot say what key it was, I believe that there was one on the Knickerbocker organ, which was in harmony with the vibrations of the theater buildings," said a member of the Musicians' Union Tuesday night, who, although he refused to divulge his name, stated that he had played the organ in the ill-fated theater on several occasions.

He recalled the time that the organ used at the St. Louis Exposition was installed in the music hall of the Wannamaker store at Philadelphia, and upon the striking of a certain note, the skylight was shattered. After an investigation, removal of the large foot stops on the organ was ordered.

### Portsmouth Cars Heavily Stoned

PORTSMOUTH, Va., Feb. 2.—Nearly every street car taken out of the yards tonight was stoned by sympathizers of the striking carmen of the Virginia Railway and Power Company. All cars were accompanied by policemen, but their presence failed to deter the attackers. One policeman was struck with a brick and slightly injured. Shots were fired but no one was injured.

As a result of disturbances which began early in the day, company of tanks intervened that if conditions became worse State troops might be asked to protect the cars.

More than 50 torpedoes and other obstructions were placed on the tracks in various sections of the city tonight. No accidents resulted, however.

# EXPLORED, JUST OUT OF NORTH, IS GOING BACK

HAROLD NOICE, YOUNGEST ARCTIC EXPLORER (CENTER) AND PHOTOS TAKEN BY HIM IN THE ARCTIC. TOP LEFT TO RIGHT: NOICE'S SCHOONER, THE "POLAR BEAR," A DOG TEAM READY TO START; ESKIMO HUT OF HIDES. BELOW, AN ESKIMO BELIEVE.

Stefansson bought the Polar Bear and invited Noice to join him on his trip north. Noice consented. Then came two years of dashes into the unknown with Stefansson. Noice became one of Stefansson's two companions on advance marches. Noice was the first to step ashore on Second Land, a new vast tract discovered by the Stefansson expedition. Noice is satisfied there's plenty of thrills and romance for the man who sets out to find them. When Noice returned to Nome after his first motion picture expedition north, his movie employer failed to meet him. So Noice decided to return on his schooner, Polar Bear, for a trading expedition. Rescues Stefansson. On his way back he sighted Stefansson on a dreary, uninhabited coast, sending out distress signals.

SEATTLE, Feb. 3.—After seven years amid the snow and ice of the far north, Harold Noice, 26, world's youngest Arctic explorer, who recently returned to civilization, announces that he is going back to the north-land as soon as he can fit out an expedition. Exploration, he has decided, will be his life work. Why does Noice choose to spend his youth in a desert of ice with polar bears, seals and an occasional Eskimo as his only companions? "Because," he'll tell you, "there are thrills in it." Seven years ago Noice, a youth of 19, decided there was no more romance in the world. He boarded an Arctic schooner and started on a motion picture trip through the northern seas. And now after having "Rescued" Vilhjalmur Stefansson,

famous explorer, and having become his aide—Discovered new lands and peoples, traced prehistoric races—Suffered two shipwrecks—Been condemned to death for violating Eskimo law—Carried on alone ethnological, geographical and archaeological research of world importance—Noice is satisfied there's plenty of thrills and romance for the man who sets out to find them. When Noice returned to Nome after his first motion picture expedition north, his movie employer failed to meet him. So Noice decided to return on his schooner, Polar Bear, for a trading expedition. Rescues Stefansson. On his way back he sighted Stefansson on a dreary, uninhabited coast, sending out distress signals.

## Was Man a Monkey? Robeson the Scene Read This, Decide Of Brutal Murder

LEXINGTON, Ky., Feb. 2.—One of the hottest battles ever waged in this state, politics not excepted, has been raging for weeks over the question as to whether the University of Kentucky and other educational institutions supported by state money shall continue teaching Darwin's theory of the evolution of man. The state senate having called a public hearing for tomorrow, advocates and enemies of the bill which, if passed, would stop such teachings are tonight on their way to Frankfort, the state capital. William Jennings Bryan was brought here for a special address against evolution, and newspapers have published columns concerning the controversy. Frank McVey, president of the university, today made public telegrams from educators over the country, all backing continuance of the evolution course. Charles W. Eliot, president emeritus of Harvard, is "astounded" at the proposed law. Dr. Bergen Davis, professor of physics at Columbia, sees stopping of evolution teachings as "ignorance of the middle ages." Robert L. Kelly, executive secretary of American colleges, New York, sees "intellectual suicide."

LUMBERTON, N. C., Feb. 2.—One of the most brutal and cold blooded murders ever committed in Robeson county took place last night. R. Walter Bullock was shot to death and robbed. Mr. Bullock operated a gasoline filling station on the highway, three miles west of Lumberton, and lived alone there. The fatal shot was fired through a window of the building in which the deceased lived and entered the back of his head near the right ear. The murdered man was 37 years old and unmarried. The load of No. 4 shot broke a pane out of the window through which it was fired. It is thought the murder was committed about 11:30. The lifeless body of Bullock was found by two men who stopped there to get some gasoline about midnight. The pockets of the dead man were turned inside out and all the contents taken. There is no clue as to who committed the crime, which has been the talk of the town today and many went to the scene of the killing to view the remains of the murdered man.

## Bank President's Wife Kills Self

MIAMI, Fla., Feb. 2.—The body of Mrs. Addie H. Myers, wife of H. O. Myers, president of the Farmers and Merchants bank of Evansville, Wis., was found in a rooming house here.

## TWENTY-FIVE MEN MEET DEATH IN MINE EXPLOSION

Rescue Workers Busy Recovering Bodies From Debris of Blast.

GATES, Pa., Feb. 2.—Twenty-five miners are known to have been killed in the explosion at the Gates mine of the N. C. Frick Coal and Coke company here early today. It was reported by coal company officials tonight, and there is a possibility the number of dead may reach 25. Thirty men were working in the section where the explosion occurred, four of whom escaped. The name of the miner unaccounted for is not known. Sixteen of the dead were taken to a mortuary at Masontown tonight. Six bodies remained at the bottom of the shaft awaiting the discovery of the three or four which remained buried under debris. Efforts were being pushed under the direction of Pittsburgh officials of the coal company to obtain these bodies tonight.

The cause of the explosion which occurred a mile and a half back in the workings of the plant has not been determined as all work has been bent toward rescue and recovering bodies of the miners. From the appearance of the bodies when found, it was indicated that death had been caused by asphyxiation. In many cases the bodies were covered by slate and coal-falls.

A special train was kept under steam throughout the day to carry injured to Brownsville if any of the miners were found alive. However, it was not called into use until tonight when it removed the bodies of 16 men to Masontown, nearby.

Damage to the mine has not been determined, although it is believed it will be small as the explosion affected only one section. The mine is one of the largest of the Frick company. Normally 1,000 men are employed. Although it has been working only part time day and night shifts have been employed.

## GERMAN GOVERNMENT TO TAKE AGGRESSIVE

BERLIN, Feb. 1.—(By the Associated Press.)—The government has announced that it will take aggressive measures in the event of a strike of the railway men, which is expected to become effective at midnight tonight. The government authorities point out that the workmen and leaders have taken an oath to support the government, and declare that in case of disobedience of traffic they will be prosecuted.

This is the first time in the history of Germany that the government has expressed its determination to take drastic steps against a labor union. Only the most radical labor quarters openly approve of the strike decision.

Binding the feet to retard their growth has been discontinued in enlightened China.

Why Are Some Women Popular, happy, beloved and successful, while others drag out a negative existence, of no use to themselves or anyone else? Except in a few cases the answer is to be found in a state of freedom from the troubles known as "female." The well woman radiates cheerfulness and serenity, while the ailing one repels because of her lack of these qualities. It is not necessary, however, to harbor aches and pains, and the "blues" that make one a detriment to society. The use of Lydia E. Pinkham's Vegetable Compound has brought relief to such women, and given them a new lease on life.—adv.

## THOUGHT ONE CLEAN SHIRT ALL HE NEEDED

"Ten years ago I was reduced to a mere shadow. I was yellow as a gold piece and would often be doubled up with most excruciating pains in my stomach. Physicians could only relieve me with morphine. I was advised to try May's Wonderful Remedy and it helped me at once. What is more, I have been well ever since. A friend said he thought one clean shirt was all I would ever wear." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince you. Money refunded. J. C. McFall's Drug Store, Trent Drug Co., and druggists everywhere.—adv.

## MERE POSSESSION OF WHISKEY NOT VIOLATION OF LAW

Fourteen Indictments Are Quashed By Ruling of Judge Clayton.

JACKSONVILLE, Feb. 2.—New indictments against former Sheriff W. H. Dowling, of Duval county; W. M. Bostwick, prominent banker and lawyer, and ten other Jacksonville citizens were returned by the federal grand jury late today charging violation of the prohibition laws.

The indictments were returned after Federal Judge Henry D. Clayton had ordered quashed earlier in the day indictments charging 14 men with conspiracy to violate the prohibition laws. Of these the grand jury found no true bill against R. E. Wheeler, former chairman of the board of directors of the Guarantee Trust and Savings bank, and J. E. Merrill, of a shipbuilding firm.

JACKSONVILLE, Feb. 2.—Holding that the mere possession of liquor is not a violation of the prohibition laws, Federal Judge Henry D. Clayton today ordered quashed indictments against fourteen Jacksonville citizens, several prominent, charging them with having operated an alleged whiskey "return."

Return of the indictments several months ago caused Sheriff W. H. Dowling, one of the defendants, to be removed from office, and is said to have caused the Guarantee Trust and Savings bank to go in the hands of a receiver.

Besides Sheriff Dowling, the defendants included R. E. Wheeler, chairman of the board of directors of the bank; W. M. Bostwick, principal stockholder, and J. E. Merrill, of a shipbuilding firm.

Wheeler resigned his position with the bank after the indictment. Subsequently the institution failed because, according to Mr. Bostwick, of the silent run extending over 60 days brought on by "street gossip" in regard to the indictments.

Judge Clayton declared the indictments to be "fatally defective," in that they made no attempt to charge that the liquor had been illegally manufactured or held for transportation, sale or like violations of the prohibition laws, beyond the broad charge that the liquor was held "in violation of the law."

It is clear that the Congress is without authority to make the mere possession of intoxicating liquors—possession stripped of every other fact or incident—a crime, Judge Clayton's lenient opinion read. "The amendment (18th) neither by expression nor implication denounces the simple possession of liquors."

The court ordered the defendants held in the same amount of bail on which they had been at liberty pending action by the prosecution.

## WIRTH ACCUSED OF BAD FAITH

BERLIN, Feb. 2.—(By the Associated Press.)—The spokesmen for the German People's party are hesitating in accusing Chancellor Wirth of breach of faith in appointing Dr. Walter Rathenau as minister of foreign affairs without awaiting the outcome of negotiations for the extension of the present coalition to the inclusion of the People's party led by Gustav Stresemann.

The People's party now charges that it notified Dr. Wirth that no new cabinet appointment should be made until the reconstruction of the government on a four-party coalition basis was effected, inasmuch as prospective success for the forthcoming compulsory loan taxation law and general reparation policies were largely dependent upon the cooperation of the new ministry.

Meantime the fate of the new coalition seems to be in abeyance until the wrath of the People's party has cooled.

## EARTHQUAKE CONFIRMED.

SAN FRANCISCO, Feb. 2.—Two craft arriving here today reported having felt Tuesday morning's earthquake some miles off the northern California coast. The steam schooner Hartwood was 20 miles off Trinidad Head when Captain Johansen, who was on the bridge, thought the vessel had grounded and the crew rushed on deck expecting trouble. A sounding was taken before it was certain the vessel was not grounded.

Captain Wallstedt, of the cod fisher, Golden State, also reported he believed his vessel grounded when the shock was felt.

## POST-MORTEM ON NEWBERRY CASE IN U. S. SENATE

Senator Spencer Attacks His Colleague, Reed, on Subject.

WASHINGTON, Feb. 2.—The issues involved in the Newberry case were echoed in the Senate, today as the two senators from Missouri, Mr. Spencer, leader of the Republicans in the fight which declared Senator Newberry entitled to his seat, and Mr. Reed, who bitterly attacked the Michigan senator several days ago, met in debate.

Senator Spencer, speaking in reply to his colleague's address of the other day, declared with reference to that speech that "villification is not evidence and vituperation cannot be substituted for facts in the Senate." He accused his colleague of "glaring misstatement of fact whenever he left for the moment the realm of vituperative fancy," and in support of the vote to declare Mr. Newberry entitled to his seat over the protest of his Democrat opponent, Henry Ford, quoted a letter written by the late Theodore Roosevelt in October, 1918, as saying the Detroit manufacturer "would be signally out of place in the American Senate so long as the Senate is dominated by men who zealously believed in the American idea, and faithfully endeavored to serve the American people."

Senator Reed, spoke only briefly in reply, explaining that he was preparing to leave the capital on business but on his return would reply at any time to any one who wished to "hold what he described as a post-mortem examination." Mr. Reed went on to say that in the controversy he intended to keep close to "the written confession by the majority Republican party" in the resolution which the Senate adopted declaring Newberry entitled to the seat, but condemning excessive campaign expenditures.

No man could vote for the resolution and in the same breath seek to justify the beneficiary who was "condemned" by the resolution, Senator Reed stated, "I was a man of nerve that would do credit to a first class orthodox devil."

## FEDERAL BANK STATEMENT

WASHINGTON, Feb. 2.—Combined resources and liabilities of the twelve Federal Reserve banks at the close of business Feb. 1 were reported tonight by the Federal Reserve board in thousands of dollars as follows:

Resources:  
Gold and gold certificates \$85,044.

## RICHMOND CITY GOVERNMENT IS COSTING MORE

WASHINGTON, Feb. 2.—The city government cost of Richmond was \$6,159,195 for the fiscal year ending January 31, 1921, or \$35.56 per capita, the census bureau announces today. This represents an increase of 30 per cent in the per capita cost compared with 1915, when it was 27.26 per capita, or a total of \$4,502,381.

The total cost of the city government of Richmond in 1915 was \$4,523,255 or \$34.67 per capita, much higher than in 1915, but less than in 1921.

The per capita costs for 1921 consisted of expenses of general departments, \$21.44; expenses of public service enterprises, \$7.60; payments for interest, \$4.84, and for outlays, \$1.67.

The total revenue in 1921 were \$6,913,524, or \$39.91 per capita. For the fiscal year the per capita excess of revenue receipts over governmental costs was, therefore, \$4.35.

Property taxes collected in the greater part of the revenue of cities. In Richmond they represented 15 per cent for 1921, 36.7 per cent for 1915, and 48.9 per cent for 1918. The increase in the amount of property taxes collected was 13.5 per cent from 1915 to 1918, and 37.2 per cent from 1918 to 1921. The per capita property taxes for the three specific years were \$29.56, \$13.71, and \$16.44, respectively.

Earnings of public service enterprises operated by the city represented 28.2 per cent of the total revenue for 1921, 22.2 per cent for 1915, and 22.7 per cent for 1918.

The net indebtedness of Richmond was \$33.32 per capita for 1921, \$76.09 for 1918, and \$80.29 for 1915.

—Mrs. W. L. Vernon continues quite ill at the home of her daughter, Mrs. E. C. Stevens.

Half the total area of the United States is farm land.

# Two Shot Dead In Liquor Raid

Fatal Affray Near Chattanooga When Officers Seek to Prevent Shipment of Booze.

CHATTANOOGA, Feb. 2.—J. C. Parrish, deputy sheriff of Walker, county, Georgia, and Cecil Parrish, his 11-year-old brother, are dead, and the bodies of both are in a local hospital, in a critical condition as a result of a shooting affray near High Point, Ga. tonight. Details of the affair are lacking. Sheriff Harmon of Walker county, told the Enquirer with a posse of officers for the scene.

Deputy Parrish was killed instantly and the younger man died as he was being conveyed to this city in an ambulance. Parrish was shot through the stomach and is not expected to live. The trouble occurred at what is known as Kendrick's Switch on the Tennessee, Alabama and Georgia railroad, 15 miles south of Chattanooga.

According to what little information was received here it was claimed that Deputy Parrish and his brother had come to Kendrick's Switch for the purpose of arresting negroes reported as planning to board a train with a quantity of whiskey. When the negroes did not enter the train a search was made for the whiskey which was thought to have been hidden and the shooting followed, how Parrish became involved is not known.

# Slapped His Wife With Family Cat

New York Author's Divorce Action Has Some Sensational Evidence.

BRIDGEPORT, Conn., Feb. 2.—The family cat, a water bucket, and heavy and profound books were some of the objects Isaac McBride, New York author, threw at the head of his wife, Nina, both of whom formerly lived in Washington, D. C., according to Mrs. McBride's testimony in her suit for divorce in superior court before Referee Joel H. Reed. Mrs. McBride, who is the daughter of former Senator Lane of Washington, wept as she told of her husband's love for "the other woman."

The other woman was described as "Lena, the butcher's daughter, 6 feet 2 inches tall."

"Unintentional cruelty" of the husband is charged by Mrs. McBride, who is an author and illustrator. An argument which led to the alleged acts of cruelty included, according to Mrs. McBride:

Development of the cosmic consciousness of the individual ego. Whether she should read the fourth chapter of "Leviathan's Positive Outcome of Philosophy" an argument which lasted two hours.

It wasn't the fact that another woman had married McBride's life that she said, but upon her testimony, it was that he threw things when they couldn't agree on an intellectual subject.

She said, for instance, that if they were arguing on cosmic consciousness or the individual ego he would charge that she was going off at a tangent and that she was hogging. Then he would become violent. Mrs. McBride testified, and threw books or other objects.

McBride, according to his wife, was in the habit of reading all night and would wake her up in the wee small hours to give her his interpretation of the book he was reading.

Mrs. McBride said her husband threw a water bucket at her in 1913 and that he pinched her.

Asked by the judge why he did that, Mrs. McBride testified: "On account of my stupidity."

"You mean he did it because you were stupid?" asked the judge.

She said: "I have an inferiority complex. He said I was stupid and ought to take up the study of study and stick to it."

Judge Reed said: "You say that a favorite line of his was to throw books at you?"

"Always," was Mrs. McBride's reply. "He hit me on the side of the face with one and it hurt quite a bit. When he threw Webster's Positive Outcome of Philosophy at me he said it was the only way to make me read the book because he wanted me to read the fourth chapter in it, and I wouldn't do any studying on my part. It was a book for the development of the individual entity."

Mrs. Anna Rogers, of New York, said she was acquainted with Mr. and Mrs. McBride and had often visited them at their home in Bethel. She said McBride threw a tea cup at her once. It was also

# New Governor Gets Busy At His Desk

RICHMOND, Feb. 2.—The first official act of E. Lee Trinkle, as governor of Virginia, was to issue a certificate as notary public to John M. Givens, Jr., of Lynchburg.

The new governor was at his desk this morning to begin in earnest his new duties. The stream of callers to congratulate him had thinned out somewhat this afternoon and the new governor was able to devote more time to seeing those who had official business with him.

Mr. H. Cardwell, the governor's secretary, and Mrs. E. J. Sullivan, assistant secretary, were at their desks this morning.

Gov. Westmoreland Davis will leave this day or tomorrow for London for a post before opening headquarters and beginning his campaign for the United States senate.

Senator Claude A. Swanson, who reached the city last night in time to attend the reception at the governor's mansion said that he is in good fighting trim and will be able to make two to three speeches a day when the campaign develops to the speech-making stage.

# Hotels Of Nice Employ Dancing Partners For Guests

NICE, Feb. 2.—Lizardines have joined the company of lounge lizards on the staffs of Nice hotels as the latest "modern convenience" of the fashionable hotel restaurant. The lizardine cure is prescribed to tired business men to inoculate them with the dance habit.

But don't make the mistake of confusing the female of the lounge lizard with our old acquaintance the vamp. The lizardine is one the regular payroll of the hotel; she punches the time clock beside the head waiter.

The head waiter busies himself at the table of the henpecked husband who is listening to how old he is getting because he doesn't dance. "If madame cares to dance perhaps she would permit me to introduce one of our professional dancers. Cost? Oh, nothing, sir. The hotel pays them. Unless perhaps you may wish to give a little tip. If madame wishes to try some steps with a lizardine, sir?"

The waiter with but little formality introduces a young Swede, American or Frenchman, who proceeds to dance as simply or intricately as his partner wishes. At the end of the dance he conducts her to her table, bows and departs. If madame wishes another dance, and the lizard is free, but not to him or signal him as you would a waiter.

The lizardine's specialty is to help the man who refuses to dance with his wife, because he hates these new-fangled steps "to regain confidence. When not otherwise engaged, the lizard and lizardines dance together. They go out on the floor immediately, so that the guests won't be annoyed by the natural hesitancy of being the first and always the possibility of being the only couple on the floor.

The average tip to a lizard or lizardine is from about fifty cents to a dollar, depending upon how many times they have been used during the afternoon or evening.

THREE CHILDREN BURNED

GREENVILLE S. C., Feb. 2.—Three children of Walter Levant, negro steward of the Sans Souci Country club, were burned to death and another badly burned in a fire which destroyed Levant's home at the country club grounds about three miles from this city tonight.

# England Welcomed New Year With Optimism

LONDON, Feb. 4.—For the first time in eight years the people of Britain welcomed the new year with feelings of real gladness untouched by apprehension. For the first time in eight years they looked ahead with feelings of hope.

New year's eve was a time for recapitulation of the stormy times of 1921.

1921. Before the midnight struck, folks looked back on the old year and its incessant strain. They recalled periods of industrial unrest, revolutionary activities and Bolshevik dangers; they remembered the awful trade depression, the ghastly miners' strike, an dire threatened Triple Alliance strike that would have speedily strangled the very life of the country; they thought of all the averted international European troubles that might have started a world war over again; they looked back to the awful spectre of massacre and civil war in Ireland.

And they asked themselves—has there ever been such a terrible year as 1921?

But, after midnight struck, their thoughts turned to a happier vein. Was not 1921 over, finished with, and better forgotten? And how about the prospect of 1922?

Then the mood changed. It became optimistic. From gloom it turned to hopefulness. What does the coming year hold in store? So they took stock of the present position.

They found that the Irish trouble was practically over. For the first time for 700 years it seemed as though England and Ireland were to live together in peace. They realized that Europe was on the point of settling down to peace and that war weapons were really being put aside. They spoke of the Washington conference square miles.

and how it had set on and kept to the mad competition of a moment and the terrifying possibility of war between the United States and Japan. And so they looked forward to a year of peace and real regeneration. They anticipated a year wherein trade promised a world-wide recovery, when nations would begin to reunite and unity return after an absence of nearly eight years.

That was how 1922 was welcomed in hundreds of thousands of British homes.

Coastline of England is 2220 miles long. India has an area of 1,803,000 square miles.

## CARDINALS IN VATICAN TO SELECT POPE

ROME, Feb. 2.—(By the Associated Press.)—Majestic stateliness attended the solemn immurement in the Vatican today of the momentary fifty-three cardinals. Every detail of the sacred rites was observed, and although the time fixed for the closing in of the cardinals was 3:30 this afternoon, so long was the ceremonial that darkness had already enshrouded the huge Basilica of St. Peter's and the Vatican palaces before the doors were finally barred and bolted, and the preliminaries were completed for the grave task of the election of a new pontiff.

The fifty-three cardinals present in Rome are now in the Vatican. Even Cardinal Marni, who is suffering from influenza, did not participate in morning. The cardinals of the afternoon, but remained in bed, resting preparatory to the work of the morning, when the first ballot will be taken. All the cardinals were grave faces, and they filed between the rows of noble Swiss and papal guards, accompanied by their attendants.

At the huge bronze doors surveillance of those passing within was of the strictest nature. A giant German-Swiss sergeant of the guard allowed nobody to enter unless furnished with a white pass, issued by Prince Chigi, marshal of the conclave. To the influence of those furnished with passes of a different type, the sergeant gruffly retorted in Italian with a strong German accent:

"Here I command; you cannot pass." Two privates stood at attention ready to execute any order he might give.

The conclave's isolation from the outside world was carried out with full ceremonial.

MRS. BERGDOLL AGAIN IN TOILS

PHILADELPHIA, Feb. 2.—Mrs. Emma C. Bergdoll, mother of Grover and Erwin Bergdoll, army deserters, was today again in the toils of the law, this time on a charge of cruelty to animals. She and Matthew Gropenbacher, caretaker of Erwin's estate at Llanerch near here, were each fined \$10 and costs for not having proper bedding for horses and cattle. The charge was brought by the Society to Prevent Cruelty to Animals. Magistrate Roy Blackburn said she blamed conditions in the barn on the caretaker and the latter passed the blame back to Mrs. Bergdoll.

LADIES MUST STOP BRIDGE GAMBLING

DUBLIN, Ga., Dublin ladies who are accustomed to playing bridge for prizes were warned by the Laurens county grand jury to stop such practices under pain of prosecution. The grand jury in its formal presentations also issued a warning that if it continues prosecution for gambling would result.

## BEWARE THE COUGH OR COLD THAT HANGS ON

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, an emulsified cod liver oil that is pleasant to take. Creomulsion is a new medical discovery with twofold action; it soothes and heals the inflamed membranes and kills the germ.

Of all known drugs, creosote is recognized by the medical fraternity as the greatest healing agency for the treatment of chronic coughs and colds and other forms of throat and lung troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and destroys the germs that lead to consumption. Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchial asthma, catarrhal bronchitis and other forms of throat and lung disease, and is excellent for building up the system after colds or the flu. Money refunded if any cough or cold, no matter how long standing, is not relieved after taking according to directions. Ask your druggist. Creomulsion Co., Atlanta, Ga.—adv.

## RAILROADS OF COUNTRY WERE WELL TREATED

Statement Is Made By Former Director General During War.

WASHINGTON, Feb. 2.—The charge of certain railroad executives that the government "ruined" the roads is groundless, William G. McAdoo, former secretary of the treasury and war-time director-general of railroads, told the Senate Interstate Commerce committee today in concluding his testimony in its inquiry into the transportation situation.

"The indisputable fact is that the government saved them," he declared, adding that government operating gave the public improved service, saved millions of dollars in transportation cost.

Summarizing his testimony, Mr. McAdoo asserted that he had shown that "the appalling transportation crisis" at the time of Federal control was not a result of government action, but a result of the taking over of the railroads, and that Federal control alone could have saved the situation and did save it, and "congestion was broken, and road lines were coordinated, and operated as an efficient national machine and the required amount of transportation to meet military needs was supplied."

No greater industry was "ever more generously treated" by the government, said the former director, declaring that during Federal control it had assumed all risk of operation, protected bonds and stockholders during the war, transformed the properties from "a menace to public safety" in January, 1918, as stated by the Interstate Commerce Commission into "an efficient machine," had "stabilized" railroad labor and, and, during the period of control, had guaranteed the roads an annual rental of \$300,000,000 or \$175,000,000, more than the Chairman Cummings of the committee had said they were entitled to receive. In addition, he said, the carriers were given a basis for rate-making which assured them, with a return of normal business conditions, an annual income of \$1,340,000,000, or \$200,000,000 more than the government rental, and were guaranteed against losses for six months after return of the properties to private control.

Over-maintenance of the railroads, during the period of control Mr. McAdoo contended, offset all claims for under-maintenance. The monthly operating cost under Federal control, he told the committee, was \$375,988,814, compared with \$473,257,239 under subsequent private management. This, he pointed out, was equivalent to saving under government operation of \$97,268,288 a month or \$1,167,220,632 a year. He placed the cost of operating the railroads since restoration of the properties to the corporations at 32 percent higher than it was during Federal control.

## TROOPS WILL GO TO NEWPORT, KY.

FRANKFORT, Ky., Feb. 2.—Twelve companies of Kentucky national guardsmen tonight were ordered to Newport, Ky., where a strike in the Newport Rolling Mills has been in progress for some time. The tank corps of Covington was ordered to move in and take control of the situation tonight, other troops are expected tomorrow.

Strike disorder, culminated here tonight in the arrival in the strike zone of an armored tank corps under orders to assist in maintaining order. Seven tanks and 45 men under command of Captain Crockett comprise the corps which arrived in Newport from Latonia, Ky., late this evening. The tank corps company went on duty at the plant after receiving orders from Governor Morrow during the late afternoon to maintain order at any cost.

Capt. L. V. Crockett went to the entrance to the mill and took up his post, without any special demonstration on the part of residents of the district. It is planned to use the tanks in guarding the mill from attack and also to patrol the territory in the vicinity of the mill, pending the arrival of State national guardsmen, ordered here tonight by Governor Morrow.

Frequent disorders have occurred in the territory surrounding the mill, where a strike has been in progress for several months, and these became more frequent and serious following withdrawal of State troopers from the strike zone last Saturday.

Reports in circulation here today to the effect that a concerted attempt on the part of strike sympathizers to rush the mill would be made during tonight had caused much uneasiness among residents of the neighborhood, who kept awake last night by sporadic firing throughout the night. As a result, many citizens of Newport appealed to Governor Morrow at Frankfort, urging him to order return of the State troopers.

BAG AND BAGGAGE SHE COMES FOR ALINONY

AURORA, Ill., Feb. 2.—Boxes, barrels and crates, standing in the rain in the front lawn at Wilcox farm, herded the return to Kane county of Mrs. Eliza Piza Crane, Costa Rican beauty and divorced wife of Herbert Crane, son of the Iron master, to collect her back alimony.

In the boxes and crates are the mirrors and card trays, bureau and other intimate household furnishings which Mrs. Crane gave her bridge. At the time of the divorce she agreed to turn his presents, and they have finally arrived, accompanied by lawyers who announce that on Monday they will go into court to collect the \$10,000 Mrs. Crane still owes of the alimony. The former Costa Rican belle now lives in New York with her three-year-old son, Anthony. Refused Crane, who she married in the divorce hearing, the father never had seen.

SHACKLETON WILL BE BURIED IN ANTARCTIC

LONDON, Feb. 2.—The body of Sir Ernest Shackleton, who died of heart disease after a long illness, will be taken back to South Georgia Island, to be buried there, according to the Daily Mail. The British Mail attributes the decision to a conference of naval and military authorities, who have decided that the body would have been the last to be seen.

WASHINGTON, Feb. 2.—The House committee on Commerce is considering a proposal to transform the Knickerbocker theater site into a park as a memorial to the dead.

## KENYON CASE MAY REQUIRE SPECIAL ACT

WASHINGTON, Feb. 2.—The appointment of Senator Kenyon, of Iowa, as a United States circuit judge may result in the passage of a special act by both houses of Congress to meet completely the situation, it was intimated tonight in some administration circles. This course may be necessary, it was said, because the salary of United States circuit judges was increased by Congress in 1916 from \$7,000 to \$8,500 when Senator Kenyon was a member of that body and the constitution expressly states that:

"No senator or representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States which shall have been created, or the emoluments whereof shall have been increased during such term."

It was recalled tonight that the late Senator Ransom, of North Carolina, was appointed minister to Mexico in 1889, after the salary had been increased during his term as senator and under an opinion from the attorney general he relinquished the post. But when the late Philander C. Knox was appointed secretary of state by President Taft after the salary for that office had been increased during his term as senator, it was further recalled, he was appointed to that salary which existed before the increase and subsequently the increase was accorded him through a special act of Congress.

SANTA ROSA, Cal., Feb. 2.—Father, mother and son lost their lives from poisoning, caused by eating home-preserved beans, according to physicians in attendance on Mr. and Mrs. Joseph Pastors and Joseph Pastors, Jr., all of Healdsburg. The parents died during the night, and the son at noon today.

## LATEST CUT DECREE AS TO MEN'S CLOTHES

PHILADELPHIA, Feb. 2.—Men's clothes this year should be cut on ample lines and have a soft appearance so that they will drape about the figure and not fit too closely, it was set forth today in the report of the fashion committee of the National Association of Merchant Tailors of America, at its annual convention. For business wear, suits with two or three buttons, will predominate, the committee said.

## FARM LOAN BONDS

NEW YORK, Feb. 2.—A New York syndicate was formed today with the expectation of handling about \$40,000,000 worth of the \$75,000,000 issue of Federal Farm Loan bonds, which will be put on the market throughout the country on Monday. It consists of a dozen prominent international banks and several of the largest bond houses. The price on the new series was not made public.

PARIS, Feb. 2.—France will be officially represented at the International economic and financial conference in Genoa.

## NINE CONVICTS WERE KILLED IN EXPLOSION

BIRMINGHAM, Feb. 2.—Nine convicts were killed from a local gas explosion in the Belle Ellen coal mines in Bibb County late today, according to reports received here by C. H. Nesbitt, State mine inspector. Mr. Nesbitt said he only received a meager report on the accident, but that the superintendent of the mines told him the explosion was a local one, that all of the bodies had been recovered and that the mine was clear. The mine inspector said that he did not know whether or not the convicts were all negroes but believed the majority of them were. The report was received too late to catch a train to the scene of the accident tonight, but a full investigation will be made tomorrow, Mr. Nesbitt said. The Belle Ellen mines are owned by the Bessemer Coal Iron and Land Company, of which Henry L. Badham is president. There are four mines in the group and about 300 convicts are employed.

## TECHNICAL KNOCKOUT

BOSTON, Feb. 2.—Tommy Gibbons, St. Paul boxer, scored a technical knockout over Pat McCarthy, of Roxbury, in the fourth round of their 10-2 and match here tonight. The bout was stopped to prevent further punishment of McCarthy. The men are light-heavyweights.

## MINISTER KILLS SELF

TROY, S. C., Feb. 2.—Rev. O. H. Burton, prominent Baptist minister of Troy, committed suicide today by shooting himself through the temple with a revolver. No cause was given for the deed.

# WILLIAM D. TAYLOR MOTION PICTURE DIRECTOR KILLED

Death Shrouded in Mystery  
—Mabel Normand Saw  
Him Last.

LOS ANGELES, Feb. 2.—Mystery tonight surrounded the murder of William Desmond Taylor, internationally known motion picture director, who was found dead at his desk in his home here this morning. The bullet which ended his life had been fired into his neck from behind and had ranged downward piercing his heart. On the desk beside his head lay a mass of cancelled checks which he apparently had been inspecting when the fatal shot was fired. Robbery, according to the police, would not have been the motive, for nothing was missing from the apartment although a considerable sum of money and jewelry was found undisturbed near the body. One of the last persons to see Taylor, who was director in chief of the Famous-Players-Lasky studios, alive,

was Mabel Normand, film comedienne. She called upon him early yesterday evening. She told detectives today that she stopped at the apartment to return a book Taylor had loaned her and talked with him for about half an hour. She said Taylor expressed fear of a former servant, whom he alleged had robbed him. She also said Taylor had told her he might call at her home several blocks away later in the evening and that he might telephone.

She left the apartment about 9 o'clock, she said, this statement being corroborated by her chauffeur. Both said Taylor walked to the car with her. She said she had not seen or heard from him again.

Taylor's only servant who left the apartment at the same time as the actress, last night, found the body on returning this morning.

Most of the early efforts of the investigators today were directed to an attempt to locate the former servant of Taylor against whom the motion picture man had lodged a complaint with the police some time ago. Taylor declared the man had stolen some of his belongings and forged his name to a check and that he believed a burglary of his apartments some time later was committed by the same person.

Harry Peavy, Taylor's negro servant, told the police that he left the apartment, according to his custom, at about 7:30 o'clock last night. He said that Miss Normand was still there at that time, having arrived while he was serving dinner about half an hour earlier. The police made it plain that they had no suspicion so far as Miss Normand was concerned, but questioned her merely in looking for possible clues in all

available quarters. When Taylor's body was first found, it was thought that he had died from a hemorrhage, so slight the passage of the bullet. After this wound was discovered, search was made for the pistol which fired the shot, but it could not be found. Nothing in the apartment was disturbed, the slayer, apparently, having fled without leaving a single clue behind.

## GENOA MEETING WILL PROBABLY BE DELAYED

PARIS, Feb. 2.—(By the Associated Press.)—Postponement of the international economic conference at Genoa is regarded in official circles in Paris this evening as the probable outcome of today's resignation of the Italian cabinet. Officials believed that the time required for the creation of a new ministry certainly would prevent the opening of the conference on March 8, as had been tentatively scheduled.

Many details for convening the meeting, it was pointed out, have not been worked out. One of the most difficult questions connected with preliminary arrangements is that of accommodations for the various delegates.

### SANITARIUM BURNS

MADISON, Fla., Feb. 2.—The Yates Sanitarium, located near this city, was destroyed by fire at an early hour this morning. All of the patients were removed to safety. The damage is estimated at approximately \$100,000.

## PRISON TERMS FOR 3 BANKERS

BRUNSWICK, Ga., Feb. 2.—Three bankers of Wayne county were sentenced to serve prison terms here today in criminal action which followed the failure of the Jessup Banking company and the Odum bank. The cases were brought here on charges of venue.

Leonard Carter, who was president of the Jessup Banking company and also was interested in the Odum bank, was convicted by a jury today but the verdict carrying a sentence of from 5 to 8 years was set aside by Judge Dehol. Graham, Jr. siding, who treated the case as a misdemeanor and ordered Carter to serve 12 months at the State prison farm. W. H. Tyson, president of the Odum bank, and H. C. Dickerson, cashier of that institution, both entered pleas of guilty. Tyson was sentenced to serve three months in Wayne county jail and pay a fine of \$1,000 and Dickerson was sentenced to serve two years in the State penitentiary. A case against Carter's son was not prosecuted.

Judge Graham said he could not approve the jury's finding in the case duty to set it aside. The charge against Carter was that of fraudulent insolvency. His counsel filed a motion for a new trial which was made returnable at Macon, April 1.

Fishing smacks, turned over on land are being used as dwellings in East Scotland.

## LIQUOR ON HIP DOES NOT MEAN CONFISCATION OF OWNER'S MACHINE

ATLANTA, Feb. 1.—Possession of liquor in the pocket of a man who is driving an automobile does not justify confiscation of the machine under the State law which provides for such action when the automobile is "used for transportation" of liquor, the Georgia court of appeals held today. The case came up on an appeal of Carl Tutton, of Gwinnett county, who asserted he was taking a quart of whiskey to his sick wife and who fought confiscation of the machine ordered by the lower State courts.

### TROOPERS TO RETURN

FRANKFORT, Ky., Feb. 1.—Governor Edwin P. Morrow, late tonight issued orders for the return of troops to Newport to maintain order in the vicinity of the Newport Rolling Mills where a strike has been in progress for several months. The troops, under command of Major H. H. Denhardt, of Bowling Green will leave Thursday morning for Newport and will remain there until the situation is cleared up.

### AIRPLANE FORCED TO LAND BECAUSE OF RAINSTORM

ADEL, Ga., Feb. 2.—An airplane in charge of Lieut. McMullen, U. S. A., flying from Arcadia, Fla., to points north, was forced to land here late this afternoon as the result of a severe rainstorm. The machine turned over and was badly damaged. Lieut. McMullen escaped injury.

### CONGRESSIONAL LOSSES.

NEW YORK, Feb. 1.—Representative Warren L. Lee passed away but a pleasant week-end at his home in Brooklyn, it was learned today with his return to Washington.

On the sleeper to New York he was robbed of overcoat, hat and gloves. The thief overlooked his watch and chain.

But another member of the fraternity visited the Lee home when the congressman was out and pocketed the timepiece and chain which the owner had left on the bureau for safety.

### NURSES CALLED UPON TO FIGHT INFLUENZA

NEW YORK, Feb. 1.—The nurses advisory council organized during the influenza epidemic of 1918, was called together by Health Commissioner Copeland today to combat the present outbreak of the disease which today increased by 1,922 cases with 20 deaths.

Dr. Copeland announced that 50 additional inspectors and nurses have been appointed by the board of health to enlarge facilities for coping with the disease.

## LOST!

250 Pimples, 736 Blackheads and 3 Boils!

No reward is offered, because they are lost forever! No question will be asked, except one question, "How did you lose them?" There is but one answer, "I cut out new fad treatments and guesswork; I used one of the most powerful blood-purifiers known, and that is S. S. S. Now my face is pinkish, my skin clear as a rose, my cheeks are filled out and my rheumatism, too, is gone!" This will be your experience, too, if you try S. S. S. It is guaranteed to be purely vegetable in all its remarkably effective medicinal ingredients. S. S. S. means a new history for you from now on! S. S. S. is sold at all drug stores in two sizes. The larger size is the more economical.

Found—that glorious feeling that comes with a clear, pure, ruddy complexion.

## PROMPT ACTION TAKEN ON MUSCLE SHOALS PROJECT

Congress Receives Proposal  
and Matter Is Referred  
to Committee.

WASHINGTON, Feb. 2.—Prompt action marked the reception by Congress today of the Ford proposal for lease and purchase of the Muscle Shoals, Ala., nitrate and water power projects as referred to the House by Secretary Weeks for its decision and afterwards for consideration by the Senate. Speaker Gillett sent the offer immediately upon its receipt to the House military affairs committee while members of the Interstate Commerce committee indicated they might seek a change of reference to their body.

Chairman Kahn of the military committee contended, however, that the report had properly been referred to his committee and pointed out that its members already had conducted hearings on the Muscle Shoals question, were entirely familiar with the projects involved, the ground occupied and several personally had inspected the site and works.

For that reason, Mr. Kahn said, expeditious action by his committee could be taken and in the event hearings were held, they would not be protracted. With the exception of Secretary Weeks and probably Mr. Ford himself, who might be called to testify, few other witnesses were understood to be under consideration in that connection.

Evidences of equally rapid action by the House itself, after the committee's report with reference to recommendations that the proposal be accepted or rejected is made to the body, were somewhat more dimmed. A keen interest in the matter already has been manifested by a large number of House members, and indications were that they would discuss the question at some length before a final vote could be reached.

Frederick E. Engstrom, who has amended proposal for the lease and purchase of the properties issued a statement today after publication of the Ford proposal.

"My proposal," Mr. Engstrom said, "contains no conditions which might prevent the manufacture of nitrates. The entire development of the project would be devoted to the manufacture of nitrate and nothing else. The nitrate plants at Muscle Shoals were designed to produce nitrates and explosives, and cannot be used to manufacture nitrates for fertilizer. In my proposal, I agree to design at once these plants at an expenditure of \$5,000,000, if necessary, and produce commercial nitrates by the best process now known.

"It is well known, however, that nitrates for fertilizer cannot be profitably manufactured by fixation of nitrogen from the air by any present known process, but everyone hopes and believes that improved processes can be developed to produce such results. My proposal does not provide for waiting to manufacture nitrates until the same can be produced at 5 per cent. profit or even at cost, but on the other hand, I propose to begin the manufacture of nitrates at once and to continue to produce the same, at the full capacity of the plant, even at a loss, until such improved methods for making cheap nitrates are developed, and to operate, in addition, a research plant in the interest of developing such improved processes. In the meantime, I propose to sell sufficient excess power produced at Muscle Shoals to finance the continuous production of nitrates and the operation of such research plants."

My proposal provides, the statement concluded, "that when nitrates can be made at less than the cost of the Chilean product, that the money arising from the sale of excess power which had before been used to finance the manufacture of nitrates, shall be turned into the treasury of the United States. Thus, it will be seen that under my proposal the government will receive an income from the start estimated at more than \$1,000,000 per year, which will be devoted to financing the production of nitrates as long as necessary, and then to receive the same as a cash income."

### PUBLIC DEBT INCREASES

WASHINGTON, Feb. 2.—The public debt decreased by approximately fifty million dollars in January, according to figures announced today by the treasury which showed the public debt on January 31 to be \$23,388,544,236 as compared with \$23,438,984,351 on December 31.

Decreases in both expenditures and receipts of the government during January as compared with December were reported by the treasury.

## Seeks Cancer Cure

Lord Atholstan, proprietor of the Montreal Star, has offered \$100,000 to any university student who will find a cure for cancer. Another of his philanthropies is a soup kitchen in his newspaper building where 2,000 are fed daily.

**Kills Himself As  
Arrest Impends**

NORFOLK, Va., Feb. 2.—(Hatter than face the consequences of arrest on an embezzlement charge, E. H. Wallin, Inc., distributors of toilet articles, with offices on the second floor of 212 Bank street, committed suicide at his desk yesterday. The body was found at 4 o'clock by C. H. Wallin, manager of the concern.

Instead of turning the warrant over to a policeman as the magistrate instructed him, Mr. Wallin put it in his pocket, intending to turn it in for a reward after he had had talk with a friend. He called at Ritter's office at 4 o'clock and found him dead in the chair at his desk. The air in the room was heavy with carbolic acid fumes.

Mr. Wallin telephoned police headquarters, and Detective John Anderson was assigned to investigate the case. The body was viewed by Dr. R. Lloyd Williams, acting coroner, who pronounced death due to self-inflicted carbolic acid poisoning. The body was turned over to L. L. Williams, undertaker, to be prepared for burial.

**Two Killed When  
Train Hits Auto**

MIAMI, Fla., Feb. 2.—A second victim was claimed tonight as a result of a Florida East Coast passenger train crashing into an automobile on a crossing near Dania, 20 miles north of Miami, this afternoon, three others are in a hospital here seriously injured.

Dr. E. R. Armstrong, Easton, Pa., died after being removed to a hospital here. Mrs. J. M. Welch, wife of the president of the People's National bank of Hackettstown, N. J., succumbed shortly after the accident while being rushed to Miami in the ambulance of the train.

Mrs. Armstrong suffered a fractured skull and is in a critical condition tonight. J. M. Welch, of Hackettstown and John Spence, of Atlantic City, were seriously hurt. The party were enroute to Miami to spend the winter.

**DOCTOR IS HELD FOR  
KILLING OLIN PRICE**

LINCOLN, S. C., Feb. 2.—Olin M. Price, 25 or 26 years of age, was shot and killed this afternoon in the drug store of Dr. Rice, J. B. Harmon. There were no eye-witnesses but after an inquest had been partially conducted Dr. Harmon was placed in jail pending further investigation. The wounded man staggered from the drug store into an undertaking establishment in an adjoining building where he died in 15 minutes.

—Dietta, the eight-year-old girl of Mr. and Mrs. Sam Farson, of Riceville, was operated on yesterday at General Hospital. She is getting along as well as could be expected.
